

## Who should attend?

Anyone - practitioner or manager, who represents or plays a tactical role in any transparent organisation, that has as its key aim, any aspect of crime prevention, investigation or disruption, within vehicle enabled crime. Organisations who want to hear about best practice, new technology and high level strategy, in a networking environment, complete with industry exhibition. Two days of learning from industry and public service champions, about dealing with the wider issues surrounding vehicles, whether it be volume crime, organized crime, or deterring fraud, or better use of the data footprints. Can you afford not to have one of your team there? IAATI members warmly welcomed.
